

LEAD RETRIEVAL

**RETURN THIS FORM BY
 APRIL 15, 2020**

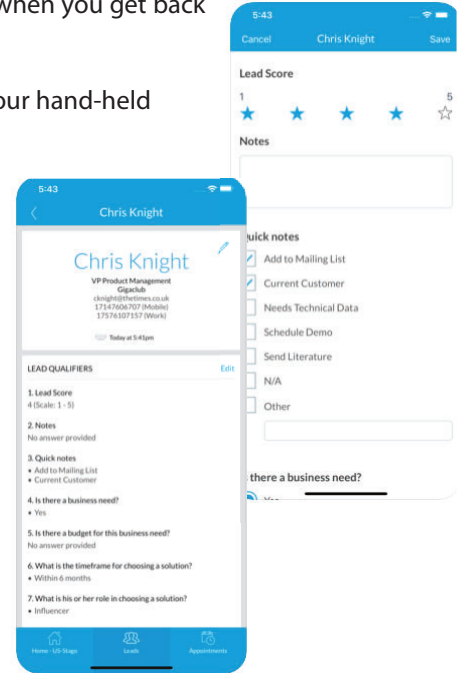

TO: kliedtke@theleague.coop

New this year: The League is offering a lead retrieval services. Say goodbye to stacks of business cards with scribbled notes that need deciphering so you can transcribe them into your CRM when you get back to the office.

LeadCapture is available either to download on your own Android or iOS device or on our hand-held scanner. LeadCapture lets you:

- Scan badge QR codes
- Scan business cards
- Create custom quantifying questions
- Perform lead scoring
- Have leads available to download in real-time
- Export leads to a file that can be imported into your CRM

The app is a great choice if you have only one person staffing your booth or you have a device (phone, tablet or iPad) you're able to share among multiple booth staff. Otherwise, you might prefer the scanner.
