

## League Top Champions

---

*Participants in the League Champion Program can opt to compete for two Top Champion positions at the end of each season, receiving up to \$500 expenses paid to an event of their choosing next season.*

After completing the original requirements of the program, participants can earn points by attending more events or completing more additional contributions.

- Each event attended beyond the four required = **10 points**
  - This can be any League event, but your promo codes are only eligible for applicable events
- Each additional contribution beyond the one required = **20 points**

*This information will be tracked by The League. Up to two participants with the highest point totals will be recognized as Top Champions at the end of the season.*

**Special Note:** *In the instance of a three-way (or more) tie, Top Champions will be determined by number of League/event-related social media posts on their LinkedIn.*
